Acknowledgements

Saskatchewan Education would like to thank those Saskatchewan Institute of Applied Science and Technology (SIAST) graduates who responded to the Graduate Follow-Up Survey. The survey would not be possible without their co-operation. Thanks also to the staff of the Student Services Offices at each SIAST campus who provided graduate lists and mailing labels to Saskatchewan Education as well as information about the various programs offered in the 1989-90 academic year. Appreciation is also expressed to the many readers of previous years' **Employment Statistics Reports** who provided valuable comments in the feedback questionnaire included with the report.

Executive Summary

The major findings of the 1990 Graduate Follow-Up Survey are as follows:

- **2,085 graduates** from 96 training programs were surveyed. **1,177 responded** to the survey for a **response rate of 57%.**
- **82%** of all respondents were **employed** at the time of the survey; **12%** were **unemployed**, i.e. not employed and looking for work, and **6%** were **not in the labour force**, i.e. not employed and not looking for work.
- **87%** of the employed respondents were in **training related occupations**, i.e. those requiring all or some of the skills gained in their training program. **76%** of those employed in training related occupations were **working full time**, i.e. 30 or more hours per week.
- **69%** of the respondents who were unemployed at the time of the survey **had worked at some time** since completing their training.
- **97%** of all respondents rated their training as **good to excellent**.
- **94%** of employed respondents indicated that their **training had prepared them appropriately** for the job they had obtained.
- **13%** of all respondents were enroled in some form of **further training** at the time of the survey.
- **$1,781/month** was the **average salary** for respondents in full time, training related employment.
- **55%** of respondents in training related employment were working in either **Regina or Saskatoon**.

General Information

Saskatchewan Education conducts an annual survey of graduates of certificate and diploma programs offered through the Saskatchewan Institute of Applied Science and Technology (SIAST). This Graduate Follow-Up Survey collects data and opinions on a variety of questions related to the graduates' employment status, occupation, industry, location of employment, salary, relationship of training to occupation and general evaluation of training received.

The **Employment Statistics Report** provides information on training programs which is not readily available elsewhere. It is used by career counsellors and students in selecting programs of study. Those planning future training or studying changes in labour market conditions also find the information useful.

The **Employment Statistics Report** presents selected results from the 1990 Graduate Follow-Up Survey. Summary information for the overall respondent population and for broad program groups is presented in the Overview of Results section. Employment related information is shown for each SIAST training program in the Program Statistics section. For further information about these and other programs, please contact:

Your comments about the **Employment Statistics Report** are invited. Should you have comments or wish to order additional copies, please complete and return the **Feedback Questionnaire** included with this report.

Methodology

Scope

The 1990 Graduate Follow-Up Survey, on which this report is based, collected data on 1989-90 graduates from all Saskatchewan Institute of Applied Science and Technology (SIAST) campuses: Kelsey in Saskatoon, Palliser in Moose Jaw, Wascana in Regina and Woodland in Prince Albert and Meadow Lake.

The training programs surveyed included certificate or diploma programs offered on-campus and lasting twelve weeks or longer. Programs not included in the survey were Apprenticeship, Saskatchewan Skills Extension, Saskatchewan Skills Development, upgrading, employer based or other special programs. Also, new programs that had not yet produced graduates were not included. Most graduates completed their program in the spring and were surveyed six months later in December. There were some differences between programs surveyed this year and those included in the 1989 survey. A detailed description of changes in the programs included in the survey for 1989-90 is contained in Appendix B.

Procedures

SIAST campuses supplied most of the graduate lists (names and addresses) to Saskatchewan Education; some others were obtained using the department's Student Information System. A questionnaire with covering letter was mailed to each graduate with a postage-paid return envelope. The graduate was asked to complete a four page questionnaire (see Appendix A). Those graduates who had not returned a completed questionnaire within six weeks of the initial mailing were sent the same questionnaire in a second mailing.

Completed questionnaires were checked and then coded for occupation, industry, location and salary information. The questionnaires were data entered using a personal computer and a database software program.

Once all returned questionnaire responses were entered, the data were sorted by individual training program and program group. The data were then tabulated and computer analyzed to obtain information for this report.

Response

The Graduate Follow-Up Survey did not use random sample methodology. All program graduates, as defined above, were surveyed and a percentage of this population responded. The results presented here are based on these respondents. It should be noted that results relate to the respondents' situation at the time of the survey only.

Overview of Results

Response Rate

The 1989-90 Graduate Follow-Up Survey was sent to 2,085 graduates from 96 training programs. 1,177 graduates responded for an overall response rate of 57% (see Table 1).

For the purposes of this survey, these SIAST programs have been grouped into five categories: Business, Health, Industrial, Service and Technology. Within those categories, Health had the highest response rate at 61%. (Please see the Table of Contents for a listing of the programs included in each group.)

Table 1
Response Rate

Program Group	Graduates #	Respondents #	Response Rate %
Business	376	221	59
Health	591	362	61
Industrial	723	379	52
Service	217	116	54
Technology	178	99	56
Overall	2,085	1,177	57%

Employment Status

Of the 1,177 survey respondents, 82% (N=962) were employed at the time of the survey (see Table 2). This includes graduates who were employed on a full time, part time or self employed basis in both training related and other occupations. Health programs had the highest overall employment rate; 92% of those respondents had jobs.

As indicated in Table 2, 12% (N=147) of all respondents were unemployed, i.e. not employed and looking for work, while 6% (N=68) were not in the labour force, i.e. not employed and not looking for work. Among the program groups, respondents from Health programs had the lowest unemployment rate at 5%.

Table 2
Respondents: Employed, Unemployed, or Not In The Labour Force

Program Group	Employed #	Employed %	Unemployed #	Unemployed %	Not In The Labour Force #	Not In The Labour Force %	Respondents #
Business	183	83	21	9	17	8	221
Health	335	92	18	5	9	3	362
Industrial	275	73	84	22	20	5	379
Service	88	76	14	12	14	12	116
Technology	81	82	10	10	8	8	99
Overall	962	82%	147	12%	68	6%	1,177

Of the 962 respondents employed at the time of the survey, 87% (N=833) were employed in training related occupations, i.e. those that required some or all of the skills gained in the program (see Table 3). Respondents from Health programs had the highest rate of training related employment at 98%.
Those respondents working in non training related occupations (N=129) identified a lack of available jobs as the major reason for not having obtained training related employment.

Table 3
Training Related and Non Training Related Employment

Program Group	Training Related Employment #	Training Related Employment %	Non Training Related Employment #	Non Training Related Employment %	Total Employed #
Business	163	89	20	11	183
Health	327	98	8	2	335
Industrial	202	74	73	26	275
Service	72	71	16	29	88
Technology	69	85	12	15	81
Overall	833	87%	129	13%	962

Further analysis of respondents employed in training related occupations indicated that overall, 76% (N=633) were employed full time, 23% (N=188) were employed part time and 1% (N=12) were self- employed (see Table 4).

Within program groups, respondents from Technology programs had the highest rate of full time employment in training related occupations at 97% (N=67). 45% (N=149) of Health program respondents in training related occupations were working part time. 4% (N=8) of respondents in Industrial programs were self-employed in a training related occupation. As well, the survey indicated that, overall, 60% (N=113) of respondents working part time in training related occupations were looking for full time employment.

Table 4
Training Related Employment: Full Time, Part Time, and Self Employed

Program Group	Full Time		Part Time		Self Employed		Total Training Related Employed
	#	%	#	%	#	%	#
Business	146	90	15	9	2	1	163
Health	177	54	149	45	1	1	327
Industrial	189	94	5	2	8	4	202
Service	54	75	17	24	1	1	72
Technology	67	97	2	3	0	0	69
Overall	633	76%	188	23%	12	1%	833

As shown in Table 5, 69% (N=101) of respondents who were unemployed at the time of the survey indicated that they had worked at some time since graduation. 65% (N=44) of those not in the labour force at the time the survey was conducted had worked at some time since completing their program.

Approximately one-quarter of those respondents who were either unemployed or not in the labour force at the time of the survey were scheduled to return to work within the next year.

Table 5
Presently Unemployed or Not In The Labour Force But Who Have Worked Since Graduation

Labour Force Status	Respondents Who Have Worked Since Graduation		Total
	#	%	#
Unemployed	101	69	147
Not In The Labour Force	44	65	68

Of those respondents (N=147) who were unemployed, i.e. looking for work at the time of the survey, all but seven explained why they could not find a job. 44% indicated they could not find employment because no jobs were available (see Table 6). 21% felt their lack of experience acted as a deterrent to finding work, while another 14% attributed their not having a job to their preferred location of employment. 12% said that employment was seasonal.

Table 6
Unemployed:
Reasons for Being Unemployed

Reason	#	%
No Jobs Available	62	44
Not Enough Experience	29	21
No Jobs In Desired Location	20	14
Employment Is Seasonal	17	12
Require Further Training	1	1
Other Reasons	11	8
Total	140	100%

Of the respondents not in the labour force (N=68), all but two indicated their reasons for being out of the labour force. As indicated in Table 7, 75% had returned to school, 11% cited family responsibilities and 3% indicated that health or disability prevented them from working.

Table 7
Reasons for Not Being In The Labour Force

Reason	#	%
Returned To School	50	75
Family Responsibilities	7	11
Health/disability	2	3
Other Reasons	7	11
Total	66	100%

Training Program

As shown in Table 8, survey respondents rated five specific aspects of their program on a scale ranging from excellent to very poor (see Table 8). In all cases, 84% or more of respondents rated the program instruction, facilities and equipment, length, curriculum content and methods of testing as good to excellent.

Table 8
All Respondents:
Rating of Specific Program Aspects

Aspect of Program	Excellent %	Very Good %	Good %	Poor %	Very Poor %
Instruction	16	38	38	7	1
Facilities/Equipment	20	31	40	8	1
Length	12	33	39	15	1
Curriculum Content	14	35	44	6	1
Methods of Testing	12	35	43	9	1

Respondents were also asked to rate the overall quality of their specific training program. Table 9 indicates that survey respondents rated the training programs very highly. 97% of respondents rated their program as good to excellent.

Table 9
All Respondents:
Rating of Overall Program Quality According to Program Group

Program Group	Excellent %	Very Good %	Good %	Poor %	Very Poor %
Business	14	50	34	2	0
Health	11	38	48	2	0
Industrial	14	49	34	2	1
Service	12	44	39	1	4
Technology	9	48	38	5	0
Overall	13%	45%	39%	2%	1%

Respondents who had been employed at some time since completing their program were asked to rate their training program according to how well it had prepared them for work. As indicated in Table 10, 63% of respondents indicated that their training program had trained them either well or very well for their job. Another 31% felt that their training program had prepared them adequately. Only 6% indicated their training had prepared them poorly for the job they had.

Among program groups, Business, at 72%, had the highest percentage of respondents who indicated that their program had prepared them well or very well for their job. 4% of Health program respondents indicated that their training had prepared them poorly.

Table 10
Respondents Employed at Some Time Since Graduation: Rating of Training Program Job Preparedness

Program Group	Very Well %	Well %	Adequately %	Poorly %
Business	27	45	23	5
Health	24	36	36	4
Industrial	24	40	28	8
Service	30	39	26	5
Technology	17	40	38	5
Overall	24%	39%	31%	6%

Overall, as shown in Table 11, 75% (N=887) of respondents indicated that their training program had met their expectations. Within program groups, the highest satisfaction level was in the Health sector where 83% (N=299) of respondents said the program met their expectations.

Table 11
All Respondents: Satisfaction Regarding Program Expectations

Program Group	Program Met Expectations #	%	Total Respondents #
Business	182	82	221
Health	299	83	362
Industrial	254	67	379
Service	77	66	116
Technology	75	76	99
Overall	887	75%	1,117

As indicated in Table 12, 50% (N=585) of all respondents moved to the city where their program was offered.

Table 12
All Respondents:
Geographic Accessibility to Program

Program Group	Moved To Program Location #	Moved To Program Location %	Total Respondents #
Business	117	53	221
Health	190	52	362
Industrial	177	47	379
Service	52	45	116
Technology	49	49	99
Overall	585	50%	1,177

Further Training After Graduation

13% (N=153) of respondents had enroled in some type of further training at the time of the survey (see Table 13). At 18% (N=406), Business program graduates had the highest enrolment in further training.

Further analysis indicates that 45% (N=69) of those enroled in a training program at the time of the survey were enroled as a full time student.

Table 13
Respondents Enroled In Further Training

Program Group	Enroled At Time Of Survey #	Enroled At Time Of Survey %	Total Respondents #
Business	406	18	221
Health	24	7	362
Industrial	56	15	379
Service	18	16	116
Technology	15	15	99
Overall	153	13%	1,177

Table 14 shows that 68% (N=101) of respondents were engaged in further studies to raise their educational level or upgrade their skills in the same field. Another 25% (N=37) were interested in pursuing a new field of study or area of employment. 7% (N=10) were enroled in a program because they could not find a suitable job. Five of the 153 respondents enroled in an education program at the time of the survey did not give a reason for taking further training.

Table 14
Respondents Enroled In Education/Training Programs: Reasons for Enroling

Reason	#	%
Further Education/Upgrading In The Same Field	101	68
Pursuing A New Field Of Study/Work	37	25
Could Not Find A Suitable Job	10	7
Total	148	100%

When asked to indicate the type of program in which they were enroled, 35% (N=51) said they were at a more advanced level in the same area of specialization; 27% (N=39) were enroled in a university program; 18% (N=27) had selected a different SIAST program and 20% (N=30) were taking another post secondary program (Table 15). Six of the 153 respondents who were enroled in a program at the time of the survey did not indicate a response to this question.

Table 15
Kinds of Training In Which Respondents Were Enroled

Type of Training	#	%
Further Training In The Same SIAST Program Field	51	35
University Program	39	27
A Different SIAST Program (any campus)	27	18
Other Post Secondary Programs	30	20
Total	147	100%

Demographics

Age

As indicated in Table 16, the average age of respondents was 25 years. The average age ranged from 24 to 27 within the different program groups.

Table 16
Average Age of Respondents

Program Group	All Respondents	Employed	Not Employed
Business	24	24	24
Health	26	26	24
Industrial	25	25	25
Service	26	26	27
Technology	24	24	24
Overall	25	25	25

Gender

Overall, 51% (N=606) of survey respondents were female and 49% (N=571) were male (see Table 17). However, there was a wide variation in the proportion of male and female respondents within program groups. For example, 95% of Industrial program respondents and 90% of Technology program respondents were male while 91% of Health program respondents and 83% of Service program respondents were female.

Table 17
All Respondents: Program Group by Gender

Program Group	Males		Females		Total Respondents
	#	%	#	%	#
Business	69	31	152	69	221
Health	32	9	330	91	362
Industrial	361	95	18	5	379
Service	20	17	96	83	116
Technology	89	90	10	10	99
Overall	571	49%	606	51%	1,177

A comparison of the employment status of male and female respondents indicated some differences between the two (see Tables 18 and 19). Among male respondents, 75% (N=428) were employed, 20% (N=113) were unemployed and 5% (N=30) were not in the labour force. Female respondents indicated that 88% (N=534) were employed, 6% (N=34) were unemployed and 6% (N=38) were not in the labour force.

Within program groups, the highest rate of employment for male respondents was found in Business programs, while the highest rate of employment for female respondents was found in Health programs.

Table 18
Male Respondents: Employed, Unemployed, or Not In The Labour Force By Program Group

Program Group	Employed		Unemployed		Not In The Labour Force		Total Male Respondents
	#	%	#	%	#	%	#

Technology	9	90	0	0	1	10	10
Overall	534	88%	34	6%	38	6%	606

Salary

As indicated in Table 20, the average gross monthly salary for respondents employed full time in training related occupations was $1,781. The highest monthly salary, $2,177, was reported by male respondents in training related occupations in the Technology field. The highest monthly salary reported by females was $2,166 for those in the Health field.

Table 20
Respondents Employed Full Time in Training Related Occupations: Average Gross Monthly Salary by Gender

Program Group	Male	Female	Overall
Business	$1,879	$1,579	$1,675
Health	$1,990	$2,166	$2,150
Industrial	$1,465	$1,044	$1,436
Service	$1,607	$1,353	$1,378
Technology	$2,177	$1,714	$2,123
Overall	$1,715	$1,838	$1,781

Special Categories

As an optional question on the survey questionnaire, respondents were given the opportunity to indicate if they belonged to either of the following two groups: persons of Indian/Native ancestry or persons with a physical disability. The results, in Table 21, show that of the 1,177 respondents who answered the questionnaire, 3% (N=30) of respondents said they were of Indian/Native ancestry, while 1% (N=11) of respondents identified themselves as having a physical disability.

Table 21
All Respondents: Optional Identification of Special Categories

Identification	#	%
Person of Indian/Native Ancestry	30	3
Person with a Physical Disability	11	1

Labour Market Data

As shown in Table 22, an analysis of the occupations in which respondents found training related employment indicates that one in six (60%) were working in three broad occupational categories: Medicine and Health (38%); Product Fabricating, Assembling and Repairing (11%); and Clerical and Related occupations (11%).

Table 22
Respondents Employed in Training Related Occupations: By Occupation Category

Program Statistics

User's Guide

In addition to a description of various aspects of the general survey response provided in the Overview of Results section, results for individual training programs are grouped by program type, i.e. Business, Health, Industrial, Service and Technology. Each program is reported on a single page that includes the following information:

-program name, SIAST campus
-response rate
-employment status
-employment description
-overall rating of training
-five year comparison of full time employment
-explanatory notes

Each of these sections is described in detail below.

Program [1] **Campus** [2]

Number of Graduates 50 [3] Number of Respondents 40 [4] Response Rate 80% [5]

1 The name of the training program.
2 The SIAST campus.
3 The number of graduates surveyed.
4 The number of graduates who returned completed questionnaires. All survey results are based on this population.
5 Percentage of graduates who responded to the survey.

Employment Status (% of all respondents) [6]

Training Related Employment: [7]		Training Related Employment	60% [12]
Full Time	40% [8]	Non Training Related Employment	20% [13]
Part Time	15% [9]	Total Employed	80% [14]
Self Employed	5% [10]	Unemployed	15% [15]
Total	60% [11]	Not In The Labour Force	5% [16]

6 This section describes the employment status of respondents at the time of the survey.
7 Training related employment refers to respondents employed in an occupation related to their training (i.e. requires or uses some or all of the skills and knowledge acquired in the program).
8 Respondents employed full time in training related occupations.
9 Respondents employed part time, i.e. less than 30 hours per week, in training related occupations.
10 Respondents self employed in training related occupations.
11 Sum of all respondents in training related employment.

12 Respondents employed in occupations related to their training.
13 Respondents employed in occupations not related to their training.
14 The total of all employed respondents (sum of training related and non training related).
15 Respondents unemployed at the time of the survey (not employed and looking for work).
16 Respondents not in the labour force (not employed and not looking for work).

Employment Description (% of respondents with training related employment)[17]

Occupation[18]	Accountant	60%
	Accounting Clerk	40%
Industry[19]	Business Service	50%
	Provincial Government	30%
	Education	20%
Location[20]	Regina	40%
	Saskatoon	40%
	Moose Jaw	20%

Salary (Monthly - Full Time, Training Related):[21] **Average $1,750**[22] **Range $1,000 to $2,500**[23]

17 Description of various aspects of employment, i.e. occupation, industry, location, salary, for respondents employed in training related occupations.
18 Occupations of those in training related employment, classified into categories using the Canadian Classification and Dictionary of Occupations (C.C.D.O.).
19 Industries of the employers of respondents in training related occupations. Industries are categorized using the Standard Industrial Classification for Saskatchewan (S.I.C.).
20 Locations of employment for respondents in training related occupations, based on employer's address and classified using the Saskatchewan Hospital Services Plan (S.H.S.P.) coding system.
21 Gross monthly salary, i.e. before deductions, for those working full time in training related occupations.
22 The average of the reported gross monthly salary for respondents in full time, training related occupations.
23 The range of lowest to highest monthly salaries for respondents in full time, training related employment.

Overall Rating of Training (% of all respondents)[24]

Excellent	Very Good	Good	Poor	Very Poor
20%	20%	20%	20%	20%

24 All respondents were asked to rate the overall quality of their training program using a five-point scale ranging from excellent to very poor. Percentages are based on all responses to this question.

Five Year Comparison (% of all respondents in each year)[25]

Respondents Employed Full Time:	85-86	86-87	87-88	88-89	89-90
Training Related Occupations 26	58%	64%	56%	77%	62%
All Occupations 27	74%	81%	83%	81%	71%

25 This section presents information from this year's survey (1989-90) as well as results from the Graduate Follow-Up Survey for the years 1985-86 to 1988-89.

26 Employment rates for respondents employed full time in training related occupations.

27 Employment rates for respondents employed full time in any occupation.

A notes section appears at the bottom of each page. One or more notes may be included to provide further details about the employment statistics or some aspect of the training program which may affect employment.

Some examples of the types of notes that may be used are as follows:

Notes

- Caution: Small number of respondents.
- Caution: Low response rate.
- * Represents one respondent.
- 2 respondents employed part time in training related employment were looking for full time employment.
- 3 unemployed respondents had worked since completing the training program.
- 2 respondents were unemployed but scheduled to return to work in the next year.
- All 3 respondents were female.
- Competency based education program.
- Optional/Mandatory co-operative education program.
- This program is subject to seasonal employment demand.

See User's Guide for explanation of percentages and other information.

Appendix A:
1990 Graduate Follow-Up Survey Questionnaire

Saskatchewan
Education

1990 Graduate Follow-Up Survey

If the information on this label is not correct, please indicate any changes:

This survey of SIAST graduates provides information for planning programs and assists those considering post secondary education. Please take a few minutes to answer the questions which apply to your situation.
Note: Your name will not be used and all responses are treated as confidential.

I. Graduate Information

1. Did you graduate from a SIAST program? a.Yes ☐ b.No ☐ If No, please return the questionnaire.

Office Use
prcode |__________|

2. a. Name of program: ____________________ b. City: ____________

3. Did you graduate between July 1, 1989 and June 30, 1990? a.Yes ☐ b.No ☐

4. If No (3b.), when did you graduate? a. Year: |_|_| b. Month: |_|_|

II. Employment Status

5. Please indicate your **present** employment status: (Please check only **one.**)

a. Employed. ☐ Please continue with **Question 6.**

b. Not employed. ☐ Please go to **III. Not Employed, Question 12, Page 2.**

6. Please describe your present job:

a. Job title: ________________________________
(Position, classification.)

b. Employer: ________________________________
(Company name, type of business.)

c. Location of employer: ________________________________
(City, town or nearest town.)

d. Province (if not Saskatchewan): ________________________________

e. Approximate gross monthly salary: $________________________________

Please continue with Question 7, Page 2.

Office Use

4 job	|_|_|_|_|
2 ind	|_|_|
5 loc	|_|_|_|_|_|
001 ct	|_|_|_|
sal	|_|_|_|_|

II. Employment Status - continued

7. Is your employment **directly related** to the education/training you received from your institute program? (i.e. Does your job use some or all of the skills acquired in your training program?)

a.Yes ☐ Please go to **Question 9.** b.No ☐ Please continue with **Question 8.**

8. If you are **not** in a training related job, why? (Please check only **one.**)

a. No longer interested in this field. ☐ c. No jobs available. ☐

b. Not qualified for training related jobs. ☐ d. Other reasons. ☐

9. How long have you worked in your present job? __________ months.

10. Your present job is: (Please check only **one.**)

a.Full time. ☐ b.Part time (less than 30 hrs./wk.). ☐ c. Self employed. ☐

11. If employed part time or self employed, are you **looking for** a full time job? a.Yes ☐ b.No ☐

Please go to IV. Education/Training, Question 17, Page 3.

III. Not Employed

(Note: Answer this section only if you are **not employed at the present time.**)

12. Have you **worked at all** since completing your training program? a.Yes ☐ b.No ☐

13. Are you scheduled to return to work **in the next year** (e.g. seasonal lay-off)? a.Yes ☐ b.No ☐

14. What is your **present** situation? (Please check only **one.**)

a. **Looking** for work. ☐ Please continue with **Question 15.** b. **Not looking** for work. ☐ Please go to **Question 16.**

15. **Looking for work** - What has prevented you from finding a job? (Please check only **one.**)

a. No jobs available. ☐ d. Employment is seasonal. ☐

b. Not enough experience. ☐ e. No jobs in desired location. ☐

c. Require further training. ☐ f. Other reasons. ☐

Please go to IV. Education/Training, Question 17, Page 3.

16. **Not looking for work** - Why are you not looking for work? (Please check only **one.**)

a. Returned to school. ☐ c. Health/disability. ☐

b. Family responsibilities. ☐ d. Other reasons. ☐

Please go to IV. Education/Training, Question 17, Page 3.

IV. Education / Training

Continuing Education

17. At **present** are you enrolled in any education/training program?

a.Yes ☐ Please continue with **Question 18.** b.No ☐ Please go to **Training Evaluation, Question 21.**

18. My present training/education is: a. Full time. ☐ b. Part time. ☐

19. Why are you taking this education/training? (Please check only **one that most applies.**)

a. Could not find a suitable job. ☐ c. Pursuing a new field of study/work. ☐

b. Further education/upgrading in the same field. ☐

20. In what type of program are you presently enrolled? (Please check only **one.**)

a. Further training in the **same** SIAST program. (e.g. second year, further modules, upgrading.) ☐ c. University program. ☐

b. A different SIAST program (any campus). ☐ d. Other post-secondary program. ☐

Please continue with Training Evaluation, Question 21.

Training Evaluation

21. Did you move **from** another location to the city where your SIAST training was held? a.Yes ☐ b.No ☐

22. Please rate each aspect (a. to f. below) of the SIAST program you completed, using the following scale:

Excellent = 1 Very Good = 2 Good = 3 Poor = 4 Very Poor = 5

a. Overall quality: ______ d. Length of program: ______

b. Instruction: ______ e. Curriculum content: ______

c. Facilities/equipment: ______ f. Methods of testing: ______

23. Did the training program meet your expectations? a.Yes ☐ b.No ☐

24. If you have been **employed** since completing the program, how well did the training program prepare you for your job? (Please check only **one.**)

a. Very Well. ☐ b. Well. ☐ c. Adequately. ☐ d. Poorly. ☐

Please continue with V. Demographic Information, Question 25, Page 4.

V. Demographic Information

25. Your present age: ☐

26. Please check: a. Male. ☐ b. Female. ☐

27. **Optional:** If you wish to identify yourself as a member of the following groups, please check:

a. Person of Indian/Native Ancestry. ☐ b. Person with a physical disability. ☐

Comments

28. Please provide any comments about your training program or experience in finding employment:

Thank you for completing the questionnaire.

Please return it in the postage paid envelope provided.

Appendix B: Program Changes (1988-89 to 1989-90)

The following outlines the differences between programs included in the 1988-89 and 1989-90 surveys:

Program:	**Change:**
Kelsey Campus	
Animal Health Technology	Students graduated in August, 1990; they will be included in next year's survey.
Palliser Campus	
Electrical (Pre-Apprenticeship)	This replaced the Electrical Construction program.
Masonry	There were no graduates for 1989-90.
Professional Cooking	This replaced the Commercial Cooking program.
Architectural Engineering Technology	There were no 1989-90 graduates of this co-operative education program; students were either in school or in a work term during the survey period.
Computer Engineering Technology Electrical Engineering Technology	These co-operative education programs did not appear in last year's survey due to class and work term rotations.
Wascana Campus	
Agricultural Mechanics	This program was included again this year; there were no graduates last year.
Electronic Communication Technician	This replaced the former Telecommunications Technician program.
Business Programmer	This program was no longer offered.
Woodland Campus	
Accounting Clerk Clerk Typist Computer Clerk Medical Stenographer	These four programs were included as options under the Office Technologies program for the 1989-90 survey.
Audio/Video Technician	This program had only one graduate and, therefore, was excluded from the results.
Micro-Electronics Technician	This replaced the Micro-Computer Electronic Technician program. It was excluded as there were only two graduates, one of whom responded to the survey.
